Description: June V. Scobee Rogers is an Alumna of Baptist College (BCC) and the widow of Francis Richard (Dick) Scobee. In her senior year at BCC she was elected to Who's Who, 1970-1971. In 1987 she was awarded an honorary doctorate in Humanities by BCC and acted as the Commencement speaker, making her the first women and first BCC graduate to act as Commencement Speaker [for more details see: A-2008-02 Commencement-Honorary Degrees-1987]

Francis Richard (Dick) Scobee served as the pilot of the April 1984 STS-41C Challenger mission to retrieve and repair the crippled Solar Maximum satellite. On that mission he took a space flight packet in honor of his wife containing several items representing Baptist College of Charleston. These items were later returned to BCC at the Convocation held November 30, 1984 as part of the Lightsey Chapel Dedication celebration week.

In 1986 Scobee served as the Commander of the STS-51L Space Shuttle Challenger that exploded after lift-off on January 28, 1986 killing all seven crew members.

The Francis Richard Scobee Scholarship was established January 30, 1986 by Baptist College at Charleston in memory of Francis Richard Scobee to be awarded to a student majoring in science education or mathematics education.

Arrangement: Chronological within individual categories
